

FEUDAL EUROPE/EUROPE PRIMARY DOCUMENTS

For this Unit, students will post online their thoughts on the pre-selected Primary Documents.

Located on the wiki, a page has been created with the names of each of the Primary Documents.

Under the discussion tab, I have created discussions based on the sections of the typical primary documents; Bias of Author, Background information, Bias of the Receiver, Impact of the Document, and Reflection. For this assignment, Summary of the Document has been removed.

Students are to post 5 times in 5 different places. Discussions are capped out at 12 responses.

Students need to create original posts, meaning they are allowed to agree or disagree with the information provided prior to them, however they also need to introduce new information to the piece.

STUDENTS MUST CAPITALIZE THEIR NEW INFORMATION IN THEIR POST. JUST LIKE I AM DOING NOW.

YOU MUST ALSO CAPITALIZE MATERIAL FROM THE DOCUMENT OR RESEARCH TO SUPPORT YOUR STATEMENT. In-text citations are still required, 3 total, no extra credit for this section.

Students cannot reply to themselves.

Students must write at least 200 words for each of their 5 posts.

All classes are working together, meaning you are not separated by your period.

This is due the day and period of the test. Meaning, just like a hard copy it is due when you take the test.

It is in your best interest to post early.
